LO: Remember a story

M

Lilly looked at the big bright moon through her good telescope. Lilly could see a wooden little ANSAY great cabin house and she was shocked! She was sad because the man wanted see her. Lilly decided to send the lonely old man a letter. Lilly was miserable because it didn't work. On Christmas day she had an idea. She attached the helium balloons on the present and sent it off. The old man got the present and

the old man opened the present like a child
on Christmas eve. He looked to not give him
that present. ✓
